Reviewers:

A. A. Chumak – M.D., Prof., Head of the Lab. of Molecular Biology, Institute of Clinical Radiology, State Institution "Research Centre for Radiation Medicine, National Academy of Med. Sciences of Ukraine";

Y. V. Khmelevsky – M.D., Prof. of bioorganic, biological and pharmaceutical chemistry Department of National Medical University named after O.O.Bogomoletz;

I. M. Konovets – Ph.D. in hydrobiology and biochemistry, senior scientific researcher, head of Hydrobiological Analytical Center of the Institute of Hydrobiology of the National Academy of Sciences of Ukraine

Approved by the Methodical and Editorial Board of the National Aviation University (Minutes № 3/11 of 18.04.2011).

У навчальному посібнику викладено основи екоотоксикології. Він складається з двох частин: «Загальні принципи екологічної токсикології» та «Токсичність основних забрудників довкілля та її оцінка».

Для студентів спеціальності 6.070800 «Екологія та охорона навколишнього середовища».

Fundamentals of Ecological Toxicology : manual / T.I. Bilyk, S.I. Tkachenko, O.A. Vasylichenko. – K. : NAU, 2012. – 260 p.

B58

ISBN 978-966-598-748-2

This course is designed as an introductory course for students studying ecotoxicology and for those involved in allied sciences requiring a background in this field. It consists of two parts: "Main principles of ecotoxicology" and "Toxicity of environmental pollutants and its assessment".

The manual is intended for students of environmental specialities of higher educational institutions.

CONTENTS

INTRODUCTION	8
Part I. MAIN PRINCIPLES OF ECOTOXICOLOGY	11
1. HAZARDOUS AND TOXIC MATERIALS IN THE ENVIRONMENT	11
1.1. Hazardous and Toxic Materials in the Environment	11
Major Definitions of Ecotoxicology.....	11
1.2. Hazardous and Toxic Substances – Some Definitions	13
1.3. Defining Hazardous Waste.....	14
1.4. Persistent and Nonpersistent Pollutants	15
1.5. Natural and Synthetic Toxins	19
Questions and Tasks.....	19
2. CLASSIFICATIONS OF HAZARDOUS AND TOXIC SUBSTANCES AND THEIR EFFECTS.....	20
2.1. Classifications of Hazardous and Toxic Substances	20
2.2. Identification of Hazardous and Toxic Materials.....	22
2.3. Acute and Chronic Toxicity.....	23
2.4. Types of Interaction of Chemicals	23
Questions and Tasks.....	26
3. PATHWAYS OF TOXICANTS INTO ECOSYSTEMS.....	26
3.1. The Major Pathways Entering Toxicants into Ecosystems	26
3.2. Transfers of Toxicants between Environmental Spheres	28
3.3. Transfers of Toxicants to Organisms	29
Questions and Tasks.....	30
4. BIOCONCENTRATION AND BIOTRANSFER FACTORS.....	31
4.1. Bioconcentration	31
4.2. Variables in Bioconcentration.....	32
4.3. Bioconcentration Factor	33
4.4. Biotransfer from Sediments	34
4.5. Biotransfer Factor.....	34
4.6. Bioconcentration by Vegetation.....	35
Questions and Tasks.....	36
5. BIODEGRADATION.....	36
5.1. Biochemical Aspects of Biodegradation	36
5.2. Cometabolism	38
5.3. General Factors in Biodegradation.....	38
5.4. Biodegradability.....	40
5.5. Biomarkers	40
Questions and Tasks.....	42

6. ENDOCRINE DISRUPTERS AND DEVELOPMENTAL TOXICANTS.....	42
6.1. Effects of Toxicants on Populations	43
6.2. Effects of Toxicants on Ecosystems	44
Questions and Tasks	48
7. MEASURING TOXICITY	48
7.1. Animal Testing.....	49
7.2. Dose-response Curves.....	50
7.3. Definition of LD ₅₀	53
7.4. Toxicity Ratings.....	54
7.5. Acute versus Chronic Doses and Effects	55
7.6. Detection Limits.....	57
Questions and Tasks	58
8. FACTORS OF TOXIC EFFECTS.....	58
8.1. Factors in Environmental Toxicity.....	58
8.2. Solubility.....	61
8.3. Bioaccumulation and Biomagnification.....	61
8.4. Persistence	63
8.5. Chemical Interactions	66
8.6. Mechanisms for Minimizing Toxic Effects	67
8.7. Modifying Factors of Toxic Effects.....	67
8.8. Environmental Factors	71
Questions and Tasks	72
9. ABSORPTION, DISTRIBUTION AND EXCRETION OF TOXICANTS.....	72
9.1. Absorption	72
9.2. Distribution	75
9.3. Elimination and Excretion of Toxicants.....	79
Questions and Tasks	80
10. MECHANISM AND RESPONSE IN CELLULAR TOXICITY.....	80
10.1. Transport Across Membranes.....	80
10.2. Uptake Processes	85
10.3. Passive Diffusion.....	87
10.4. Active Transport.....	91
10.5. Facilitated Diffusion.....	93
10.6. Filtration	93
10.7. Endocytosis: Engulfing by the Cell.....	93
Questions and Tasks	94
11. METABOLISM OF TOXIC SUBSTANCES	94
11.1. Stages in the Metabolism of Xenobiotics	95

11.2. Relationship between Metabolism of Xenobiotics and Their Structure.....	96
11.3. Xenobiotic Routes in the Organism.....	96
Questions and Tasks.....	104
12. CONJUGATION OF XENOBIOTICS.	
ITS MECHANISM AND ROLE	104
12.1. Glucuronic Acid Conjugation.....	117
12.2. Sulphate Conjugation	107
12.3. Acetyl Conjugation.....	108
12.4. Thiosulphate Conjugation	109
12.5. Glycine Conjugation.....	109
12.6. Glutamine Conjugation	110
13. FACTORS INFLUENCING ENZYME ACTIVITY	111
13.1. Methods to Measure Biotransformation.....	111
13.2. Activation of Enzymes.....	113
13.3. Inhibition of Enzymes.....	114
13.4. Allosteric Regulation of Enzymic Activity.....	116
Questions and Tasks.....	117
Part II. TOXICITY OF ENVIRONMENTAL POLLUTANTS AND ITS ASSESSMENT	118
14. ENVIRONMENTAL POLLUTANTS. GENERAL REMARKS.....	118
14.1. Synthetic Persistent Chemicals.....	119
14.2. Nonpersistent Organic Chemicals	120
14.3. Inorganic Ions.....	123
Questions and Tasks.....	124
15. TOXICITY OF METALS.....	124
15.1. Uses and Human Exposure.....	124
15.2. Movement of Metals in the Environment.....	125
15.3. Chemical Mechanisms of Metal Toxicology.....	126
15.4. Antidotes for Treatment of Heavy Metal Poisoning.....	128
Questions and Tasks.....	130
16. FACTORS IMPACTING METAL TOXICITY	130
16.1. Site of Action	130
16.2. Factors Affecting Toxicity of Metals	131
16.3. Biological Indicators	135
Questions and Tasks.....	137
17. METALS OF MULTI-ORGAN TOXICITY.....	137
17.1. Cadmium	137
17.2. Mercury	140
17.3. Lead.....	144
Questions and Tasks.....	148

18. TOXICITY OF PESTICIDES	148
18.1. General Notion of Pesticides. Agricultural Role of Pesticides	148
18.2. Classification of Pesticides.....	149
18.3. Physical and Chemical Properties of Chlororganic Compounds.	150
18.4. Negative Factors of Pesticides Influence on Human Life and Environment	150
18.5. The Characteristics of Phosphorous Compounds (PhC)	152
18.6. Cholinesterase Inhibition.....	155
Questions and Tasks	157
19. TOXICOLOGICAL ACTION AND METABOLISM OF DRUGS ...	158
19.1. Localization of Drug Metabolism in the Organism.....	158
19.2. Factors Affecting Drug Metabolism.....	160
19.3. Drug Metabolism in Relation to Administration Mode.....	163
19.4. Environmental Factors in Drug Metabolism	163
Questions and Tasks	166
20. TOXICITY OF WIDELY USED DRUGS.....	166
20.1. Paracetamol	166
20.2. Antibiotics.....	173
20.3. Cephalosporins.....	175
20.4. Penicillin	177
20.5. Aspirin.....	179
Questions and Tasks	183
21. FOOD ADDITIVES AND CONTAMINANTS	184
21.1. Definition of Food Additives	184
21.2. Classification of Food Additives and Contaminants	184
21.3. Toxicological Testing and Evaluation.....	187
21.4. Indirect Food Additives.....	189
21.5. Contaminants.....	191
21.6. Additives of Toxicological Concern	192
Questions and Tasks	193
22. TEST SYSTEMS AND STUDY TYPES FOR ECOTOXICOLOGY.....	193
22.1. Factors in Testing for Environmental Effect.....	194
22.2. Ecotoxicology in Vitro	196
22.3. Invertebrates	197
22.4. Vertebrates	198
22.5. Mesocosms and Field Tests and Studies	198
22.6. Environmental Assessment of Agrochemicals	201
22.7. Environmental Assessment of Pharmaceuticals	202
22.8. Pitfalls in Environmental Toxicology	204
Questions and Tasks	205

23. ASSESSING EXPOSURE.....	205
23.1. Integration of Exposure Information	207
23.2. Toxicokinetics	211
23.3. The Reality of Difference – the Interpretation of Small Differences	213
23.4. The Reproducibility of Difference	216
23.5. Overview of Interpretation	217
23.6. Environmental Toxicology and Ecotoxicology.....	217
Questions and Tasks.....	221
<i>APPENDIX 1</i>	222
<i>APPENDIX 2</i>	238
<i>APPENDIX 3</i>	239
<i>APPENDIX 4</i>	240
<i>APPENDIX 5</i>	245
<i>APPENDIX 6</i>	246
<i>APPENDIX 7</i>	247
GLOSSARY	248
LITERATURE.....	259
